

P.E.S University, Bangalore-560085

Department of Computer Science & Engineering

Web Technologies-1 UE17CS204

Mini Project

“PESU Scholar”

Sl.No	USN	Name	Semester	Section
1	PES1201700954	Salman Ahmed Fairoze	3	D
2	PES1201701142	Karan Panjabi	3	D
3	PES1201701002	Mainaki Saraf	3	D

Project Description

Objective:

The objective of this project is to create a website which serves as a unified platform of research and for PES University irrespective of the branch or department.

Technologies used:

We have used basic html, CSS, JavaScript and PHP in this website.

Description:

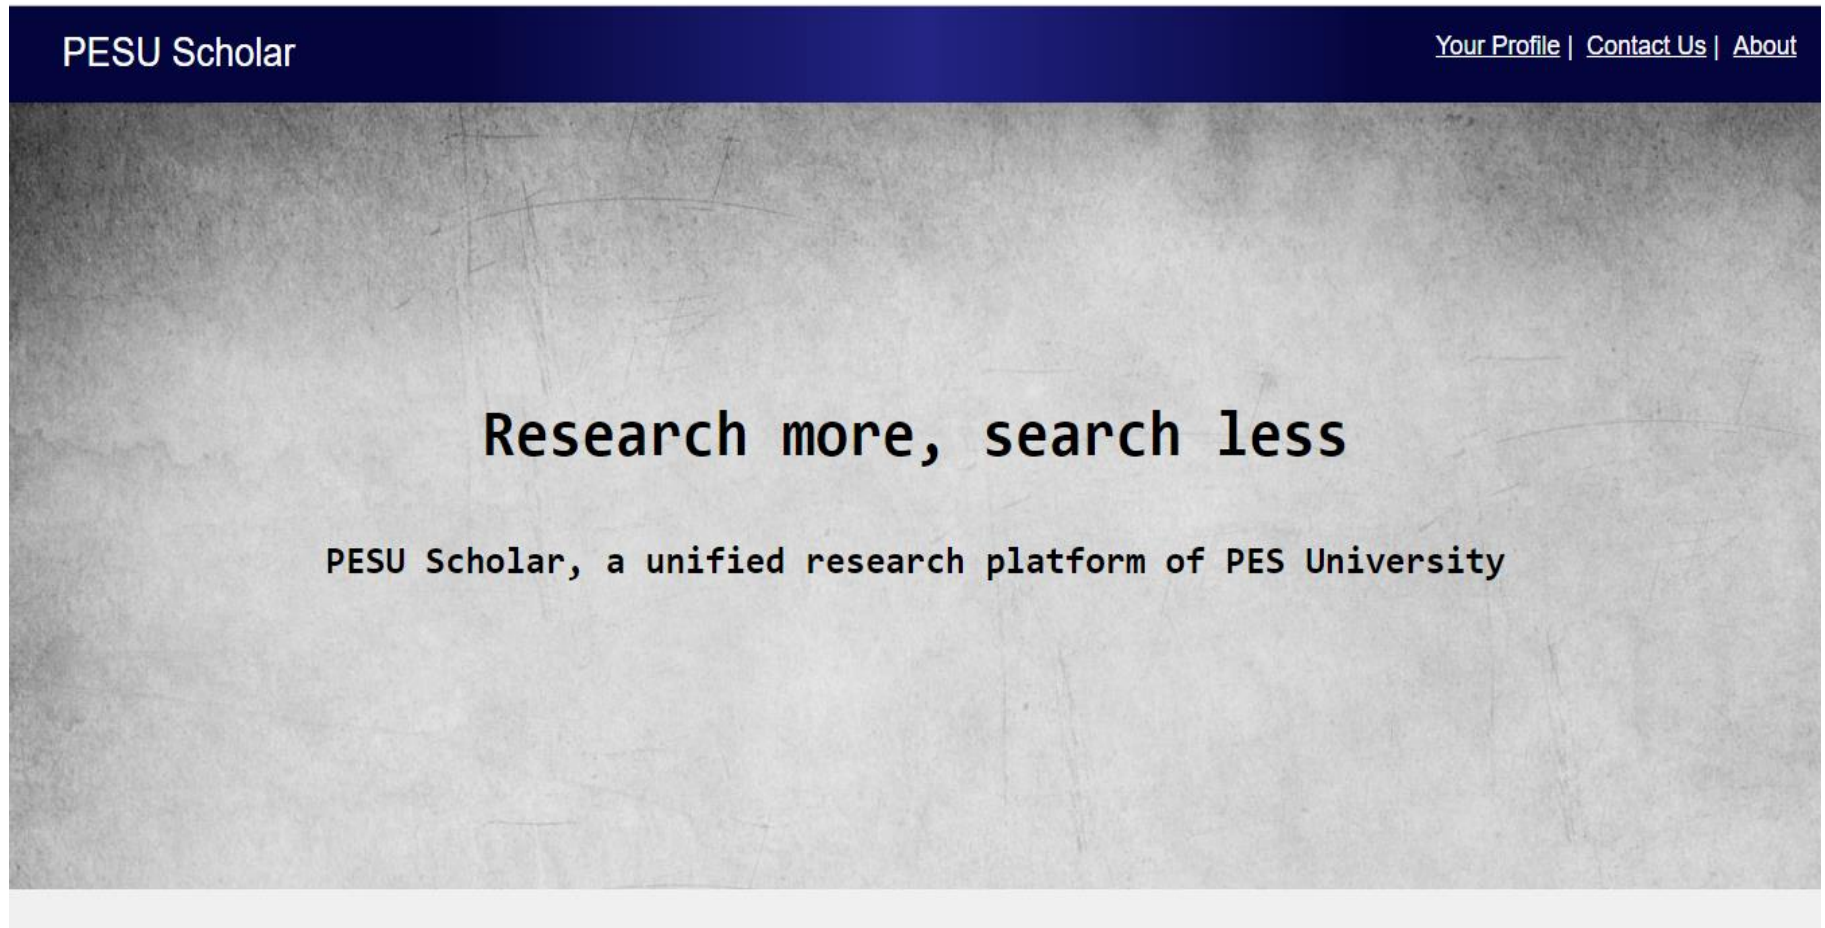

Our project uses html, CSS, JavaScript and PHP. HTML forms the structure and major aesthetic work is done using CSS only. JavaScript is mainly used for hashing the passwords. The backend is done using PHP which plays a major role in our project. Our database maintains users' basic info and their research/project works. The discussion forum is the point of attraction of our websites to many users.
